

Bishop Sports

Situated in Slough, Bishop Sports and Leisure is one of the leading UK retailers of Sports and Leisure equipment.

As a specialist supplier to the educational sector, local authorities, holiday/leisure centres and the general public, Bishop offers a range of Play, P.E and sports equipment.

📍 Slough, Berkshire, UK 🌐 www.bishopssport.co.uk

Reseller: Creative Computing www.creative-computing.co.uk

The challenge

Bishop Sports & Leisure produces an average of more than two thousand invoices, statements, purchase orders and other accounts documents every month.

Following a period of sustained business growth, which saw a significant rise in the volume of accounts related documentation being produced, the company took the decision to review the way it managed its accounts processes.

The solution

Recommended by Bishop Sports' IT reseller, Creative Computing, who have advised the company for many years, Spindle Professional was the natural partner to improve the efficiency of the company's document management.

Used in tandem with Microsoft Dynamics NAV, Spindle Professional has enabled Bishop Sports to achieve a 25 per cent reduction in man hours in processing their sales and purchase documents.

Seb Bishop, Director of the Bishop group of companies said that Spindle Professional has exceeded expectations:

"I was instantly impressed by Spindle Professional's efficiency and effectiveness at being able to deliver on what it promised. This is where many software packages let themselves down, but Spindle Professional scores time and time again. I would have no hesitation in recommending it to anyone."

With much greater control of their document management, Bishop Sports are able to operate more smoothly and efficiently.

The results

25 per cent reduction in man-hours processing accounting and ordering documents

Delivered a more streamlined and **efficient process**

Fully integrated with Microsoft Dynamics NAV

Better control of document storage, retrieval and distribution

"I was instantly impressed by Spindle Professional's efficiency and effectiveness at being able to deliver on what it promised. This is where many software packages let themselves down, but Spindle Professional scores time and time again. I would have no hesitation in recommending it to anyone."

Seb Bishop, Director of the Bishop Group of Companies
